Teacher and Students can benefit from exposure to the latest and greatest tutorials

CONSULTING GROWTH

Consultant toolkits and learning: How do you keep up with the latest and greatest solutions from your favorite software vendor?

Microsoft HoloLens

Growing with WHAT'S NEXT

Experience the latest in Mixed Reality

Experience the Microsoft HoloLens, play games, write games, and explore what is already there in holographic computing

Artificial Intelligence and Deep Learning

Soon, computer programs will make every-day decisions, automating many aspects of our lives, from shopping experiences, connecting to family or friends online, or even driving our cars. Programming is at the heart of this automation, and we want to help our children be a part of this technical revolution:

- Give your children the tools and the knowledge they need to succeed in the Holographic computing future.
- Be prepared and ready for jobs in software, robotics, gaming, entertainment, holographic chatrooms, and surround video. High-tech jobs are and will continue to be in high demand.

As seen on www.microsoft.com web site
